Vol. VII No. 74 | The County Seat Paper | NEVADA CITY, CALIFORNIA | The GOLD Center | FRIDAY, JULY 14, 1933

Legislature, Meeting Monday, To Wrestle With State Deficit

By THOMAS B. MALARKEY

SACRAMENTO, Cal., July 13—(UP)—Gravely aware they face one of the biggest tax crices in the states history and also an inevitable veto controversy with the Rolph Administration, California's 120 legislators today prepared a reconvene here Monday and do their utmost to straighten out the unfortunate tangle.

MALARKEY

If the state is to meet all its obligations for the next biennium, these legislators must raise sufficient taxes to meet a deficit estimated between $121,000,000 and $128,000,000.

Seveny-six million dollars of this total represents the counties' fixed school charges, assumed by the state by virtue of passage of the Riley-Stewart tax revision plan.

The remainder, between $45,000,000 and $52,000,000 is the actual 1931-33 deficit coupled with the anticipated 1933-35 deficit.

WHAT KIND OF TAX

New taxes are inevitable. What shall they be? Sales tax? Income tax? A hodge-podge of new levies, including the aforementioned and such measures as stock transfers tax, additional license fees, increased utility taxes, utility consumers tax, amusement tax or gross receipts tax?

Sentitment appears to be crystallizing in favor of a sales tax. A two per cent levy would raise around $60,000,000; three per cent, about $92,000,000 and four per cent would wipe out the deficit.

Some legislators favor a two per cent levy and a hodge-podge of other taxes to meet the situation. Other groups urge a straight three per cent tax and suggest the state go in the "red" for $35,000,000. Still another would wipe the slate clear with a four per cent tax—but these last are few.

INCOME TAX ADVOCATED

A numbe r of legislative leaders have come forth with dual propositions—both income and sales tax. They hold a sales tax is essentially a "poor man's" levy. Consequently to balance things up, there should be passed an income tax bearing down exceptionally hard on incomes in the higher brackets.

A virorous effort has been made by legislators, tax groups and state officials to crystallize opinion before the session convenes. If legislative leaders can agree on a coherent program, it is believed it will be speedily adopted. Unpaid legislators will not be anxious to prolong a session during hot summer days.

SESSION MAY LAST WEEKS

But if key men cannot agree, the session might last for weeks.

Next in importance is the prospective fight over vetoes. Governor J. Rolph vetoed 113 bills—one out of every ten passed by the legislature. Among these were many legislative "sacred cows," such as the "joy riding" bill, the oleo-margarine bill, three school economy measures, the state employes $5,000,000 salary reduction act; several county government bills and many judges' salary measures. Rumblings of discontent have already been heard. Various legislators are amassing votes in an attempt to override the executive's vetoes. If the lawmakers are in the same mood as when, for the first time in over 40 years, they overrode Rolph's veto of Mendocino county government bills last May, political history may be made at this brief July session.

DEPARTMENTS NEED MONEY

Still another task is to decide whether or not several state departments shall be granted more money. In this category come the department of social welfare, narcotics division, bureau of criminal identification, insurance division, bureau of commerce and others. Governor Rolph has announced he will request additional appropriations for these state agencies. He will contend the budgetary allowance is inadequate and vital governmental functions are jeopardized.

In its potentialities, this brief legislative session looms as one of the most important in the state's history. There is a possibility, of course, the lawmakers may meet, quickly sustain all vetoes, pass one sales tax and close shop. But it is admittedly remote. Too many toes wer trod upon by these vetoes; and there are too many clashing viewpoints on tax matters.

FRED STEWART THANKS NUGGET FOR BALLOT AID

State Board of Equalization
Sacramento.

July 13, 1933

The Nugget,
Nevada City, Calif.
Dear Sirs:

The success of Proposition Number 1, known as the Riley-Stewart Tax Relief Plan, at the special election on June 27 was in large part due to the loyal and intelligent support of California newspapers.

In leading this fight for tax relief and the elimination of tax inequalities, you have rendered a tremoundously worthwhile service to California agriculture, business, industry and common taxpayers generally, as well as to the proponents of the program.

Please be assured of my deep appreciation of your good work.

Very sincerely yours,
FRED E. STEWART.

ORIENTAL SOON STARTS MILLING

Andrew Carey, mill man for many years left Nevada City this week for Alleghany, where he is assisting in putting the Oriental mine, mill in shape for steady production.

There is a crew of five men employed at the property now getting out ore for milling within a short time.

This property is in the same district as the famous 16 to 1 mine and work is going ahead in the 4000 foot tunnel.

TRAIN CRASH VICTIM IS BORNE TO GRAVE

Mrs. Margaret Heard Shaeffer, who was killed as the result of a train accident just below Town Talk Monday night was buried at 5 p. m. Wednesday. Mrs. Shaeffer was a resident of Oakland. She was celebrating her 88th birthday by going to her daughter, Mrs. Mary Belle Ayers of Downieville. Mrs. Shaeffer is also survived by several grand children.

Holmes Funeral Home made the funeral arrangements.

CHIEF OF POLICE TO ENFORCE ORDINANCES

Chief of Police Garfield Robson has started a campaign of enforcement of several city ordinances in Nevada City, in an effort to stop violations.

Slot machines operated in violation of the state law will no longer be tolerated and the machines have been ordered taken out of the various establishments housing them.

The parking law in effect from 2 A. M. until 6 A. M. will also be enforced, and violators subject to parking tags by the city police.

Robson last week, "floated" eight undersirable itinerants out of town. They were found intoxicated on the streets.

Melville Johns and two brothers of Grass Valley were Nevada City visitors Wednesday.

ONE HALF IN ROSE BLOSSOM AND 3 INCH PANSIES—WHAT NEXT?

Mrs. J. R. Ivey, lover of flowers, has recently succeeded in another interesting experiment. From seed she has produced a single white rose on a plant 2 inches high which bears blossoms one half inch in diameter. The tiny plant has perfect minature leaves and the rose petals give off a faint rose fragrance.

Only a short time ago Mrs. ivey presented the Nugget office with a resplendent bouquet of pansies, none of which were less than three inches in diameter.

WALLBERG MINE MILLS 10 TONS OF ORE DAILY

J. O. Wallberg, one of the owners and the manager of the Wallberg mine, nine miles from Bullards Bar and near Challenge in Yuba county, was in Nevada City this week to obtain necessary supplies and equipment.

He states that the company now employs 10 men on one shift and is milling 10 tons of ore daily. The mine is equipped with a ten stamp and flotation facilities, a 75 horse power Diesel engine.

The ore runs between $10 and $12 per ton in value ,and 15,000 tons of ore reserves have been blocked out. The tunnel is in 1,000 feet and there are 240 feet of backs at the face. The quartz is of the blue ribbon variety, and the vein is a true fissure vein with a diorite contact. The shaft is sunk on the ledg and is down 300 feet.

FACTS ABOUT NEVADA CITY FROM THE "DIARY OF A FORTY NINER"

This is the first of a series of excerpts from the "Diary of a Forty Niner," a unique record of the experiences of a miner who lived in the brave Argonaut days of Nevada City's founding. These entries from the journal of this pioneer gold seeker will appear in each Friday's issue of the Nugget.

May 25, 1850—Sent over by Jim Early for some tobacco—five plugs for two dollars.

I hear there are three women over on Selby Flat. What we miss more than anything else is that there are no women in this country. Barring out the greasers and squaws, I dont suppose there are twenty in all of Yuba county, outside of Marysville.

June 29, 1850—Wednesday I struck a crevice in the bed-rock on the rim of the creek (Rock Creek) and it was lousy with gold. It took me two days to work it out and I got almost twenty-nine ounces, which with three ounces rocked the first two days raised the week's work to more than five hundred dollars.

July 20, 1850—He says there is a new way of taking out gold by a machine, called a Long Tom. He saw it working at Kellogg's claim on Brush Creek and as much dirt can be put through it in a day as one can with a rocker in a week.

August 17, 1850—We finished the ditch on Thursday and turned in the water. It carries a lot more than we need and when we ran it into the gulch, Anderson got a new idea. We put a trench down through the middle of the ravine and there was a pretty heavy fall. The top dirt is nothing but red clay and he began picking the dirt and watching it run off into the creek and then he said, "What is the use of shoveling this all off when the water will do it for us?" (Anderson had stumbled on another great step in mining, viz ground sluicing.)

August 31, 1850—I was told that the people living round Caldwell's store held a meeting and called the place "Nevada City." Nevada is Spanish for snow.

Other excerpts from this unique diary in Friday's issue.)

Mr. and Mrs. C. W. McCall left Tuesday for their home in Oakland after a pleasant vacation in Nevada City.

N. D. G. W. SQUARE NOT INTENDED FOR PARK, WRITES NUGGET READER

Editor, Nevada City Nugget
Nevada City,

July 11, 1933

Dear Sir:

Your editorial anent the band stand in the Native Daughters Square gives me a pain in the neck.

Being a recent arrival you probably do not know that this Square was not intended for a park and should not be spoken of as such. It is intended for a Memorial to our Boys who offered their services in the World War. On that site stood an old hotel, popular in its day, and productive to its owner at one time. It had fallen into decay was a fire menace and unoccupied. By its removal, adjoining property was relieved of a very high insurance rate which fact is appreciated by those affected. The Native Daughters were anxious to honor the local soldier boys and the town was and still is in need of a fountain for public use. A landscape artist was brought in and a definite plan made to complete the idea and it was hoped and expected that other organizations and citizens in general would cooperate. A few made contributions but in the main, Laurel Parlor has carried th burden alone and owing to stringent times and demands for other public affairs we have kept in the background and been content to bide our time in setting a suitable fountain. Graddually our shrubbery has attained a certain degree of beauty and made a suitable setting for the fountain.

There have been many obstacles to overcome. We pay about five dollars a month to maintain the plot in order, and every time the square is used as an auditorium for the nearby band concerts sprinklers are broken off and have to be replaced at a cost of fifty cents each.

Personally I appreciate the band and its leader and have always done my part to carry the burden but while we are suffering from the prevailing world depression let us ask for the use of the hotel porch and spend our money for music and other needs of the band. We will need a band stand near the swimming pool next year and meanwhile even with fallen arches or pains in the neck we can still enjoy the music from the present site or even move over to the courthouse lawn and refrain from destroying the idea of a Memorial when every other town and hamlet in the United States has municipal aid in honoring the soldier boys.

Patriotically yours,
BELLE DOUGLASS

FISHERMEN LUCKY IN JACKSON MEADOWS

A group of fisherman left Nevada City at two o'clock last Sunday morning motoring to Jackson Meadows where a nice lot of fish were caught and after a fine picnic lunch they returned home the same evening at eleven o'clock.

Those in the crowd were: Mr. and Mrs. Noble McCormack, Mr. and Mrs. Don Steger, Bob Steger, Miss Irma McCormack, Sammy and Carl Steger, Miss Erline Sutton, Noble McCormack Jr., and Tom Rafter.

RELIEF HILL GRAVEL MINE MAKES CLEAN UP

A crew of seven men are now making a clean-up at the Relief Hill gravel mine near North Bloomfield, preparatory to stopping operations for the summer due to shortage of water. About 10,000 yards of gravel was worked this season.

Carl Larson is foreman, and C. Clark superintendent at the mine.

NEW TUNNEL BEING DRIVEN IN ZEIBRIGHT

Driving of a new tunnel to develop the downward extension of the vein-system in the Zeibright mine, near Emgirant Gap, is to be undertaken shortly, and the mill reconditioned and placed in operation. Old workings were recently cleaned out and repaired, and a large tonnage of low-grade has been revealed.

The improved mill will treat thirty to thiry-five tons daily. The Zeibrights is controlled by the Newmont Mining Corporation, with E. W. Bennett, superintendent.

Nevada City School Budgets Total $42,000

School budgets for the Nevada City high school and the Washington and Oakland district grammar schools, published in this issue of the Nugget, show an estimated expenditure for the two Nevada City schools of $42,000.

The total proposed expenditures for the Washington grammar school is $21,025 while the total income is estimated at $25,399. The district will be taxed to raise $8,082. Salaries for teachers will amount to $13,540 during the coming school year.

The high school district enters the next school year with a balance of $3,348 on hand. Among revenue items that the school board expects to receive is the sum of $1,338 tuition fees from the Oakland school district. Salaries for the high school teachers during the coming year will amount to $15,050. Total estimate of expenditures is $21,635, while the estimate income will amount to $21,549.

WESTERN PEACE ARMY TOTALS 90 THOUSAND MEN

SAN FRANCISCO, July 13,—(UP—A peace time army of more than 90,000 men, conscripted under President Roosevelt's recovery program, was scattered in eight western states.

Leading the recruits in the battle against the depression was General Malin Craig, Commander of the Ninth Corps Area, which contains 459 concentration camps in California, Utah, Nevada, Wyoming, Idaho, Montana, Oregon and Washington. He will be assisted by his chief of staff, Col. E. S. Hartshorn.

The army is composed mostly of young men, many of whom never have done manuel labor or been in a forest, but Gen. Craig was optimistic over their eagerness to tackle their job—the first they have been able to obtain since the depression began. There also were many World War veterans in the camps.

"Lieut. Gen. Hunter Ligett once wrote that the fighters of St. Mihiel and the Marne were self-reliant, full of courage, intelligence and energy, and I am happy to say these men also have those attributes," said Gen. Craig.

"Faced with a life new to most of them, they have shown great ingenuity in making life comfortable, and in eliminating as far as possible the friction inherent in outdoor existence."

The forest camp "soldiers" will have an opportunity to advance. Although regulations provide for a cash allowance of $30 a month, it was announced eight per cent may be paid $45, and an additional eight per cent $36. Men chosen for the higher wage bracket will become overseers.

BELOVED RESIDENT OF NOR. SAN JUAN IS DEAD

NORTH SAN JUAN, July 13—On Wednesday morning Mrs. Helena Dahneke, one of North San Juan's few remaining early pioneers, passed peacefully away at the home here in town where she and her daughter Lena have resided many years.

Mrs. Dahneke was formerly Miss Helena Katrina Ahlers and was born May 26, 1838 in Bremen, Hanover, Germany.

When about 18 years old she came to New York and became engaged to Heinrich Diedrich Dahneke who was also a native of Hanover, Germany. Mr. Dahneke came to California at the time of the gold excitement and settled in San Juan where he engaged in mining. He soon sent for Miss Ahlers and met her in San Francisco where they were married on May 6, 1860 by a German Lutheran minister and came to San Juan where they made their home all through their married life. Two sons, William and Lou, and one daughter, Lena, were born here.

William died in Alaska in 1922 and Lou passed away in June of this year at his home in Palo Alto. Besides the daughter, Miss Lena, there remains a number of grandchildren and great-grandchildren.

Mrs. Dahneke became blind a number of years ago but never lost her cheerful, happy out look on life and always greeted her friends with a cordial welcome.

While Mrs. Dahneke was a lifelong member of the Lutheran faith she was a faithful attendant of the local M. E. Church as long as she could go and until very recently was able to be interested in its services.

Funeral services will be held at the home on Saturday afternoon. Rev. H. H. Buckner officiating.

JURY FINDS MRS. SCHAEFFER DIED FROM ACCIDENT

A verdict of accidental death was returned by the coroners jury Wednesday night following an inquest upon the death of Mrs. Margaret H. Schaeffer who passed away Monday evening as the result of injuries sustained when three cars of the Narrow Gauge railway plunged down grade from Town Talk and were derailed and wrecked at the Macari crossing.

The jury, which held the inquest under Coroner A. M. Holmes, consisted of C. E. Boreman, foreman, W. J. Coughlan, W. E. Bolander, Percy Jacob, G. W. Halstead, Arthur Smith and R. E. Clary.

The formal verdict follows:

"We find the deceased, Margaret Heard Shaeffer, aged 88 years, came to her death at the Jones Memorial Hospital, Grass Valley, on July 10, 1933, as a result of a fractured skull and shock sustained in accidental derailing of railway coach owned by the Nevada County Narrow Gauge Railroad."

Witnesses examined were. Fred Rundy, conductor of the train; Edward Horton, brakeman; Eugene Katzer, fireman and Melio Solaro, of the train crew; Dr. C. P. Jones, C. A. Morehouse, general agent of the co., W. F. Sharpe, State Forest Ranger; Melvin G. Auld, survivor of the two passenger; M. T. Ayers son-in-law of the deceased woman, and Martin Ries, master mechanic of the railroad company.

The train crew members testified that brakes were set on the three cars, two box cars loaded with dynamite, and the passenger car in which Mrs. Schaeffer was riding when the fatal accident occured. They testified that they had stopped the train to do some switching at the Standard Oil yards, and when this was done, noticed the three cars in motion, despite the fact that all brakes were set. Some of them ran after the runaway cars, but finally they gave up the chase and went after them with an engine and tender.

Melvin Auld, the other surviving and uninjured passenger on the train, declared he did not believe the brakes were set, and stated that he tried ineffectively to set them, when after coasting some distance, he discovered the cars were running away.

PAHATSI PRESS IS LIVELY SCOUT DAILY

Subscriptions are being taken for "Pathatsi Press" the Camp Daily newspaper. The paper is being mailed daily for 20 cents a week or 50 cents for the entire three week period. This year the paper is printed in the form of a four page folder. Each issue contains a nature corner, Pathatsi Pokes and Jokes and an editorial on Scouting, in addition to the regular camp news and announcements. The nature corner is hand colored.

"Pahatsi Press" presents an accurate and current history of camp life and will be enjoyed by Scouts and friends of Scouting who are unable to be in camp this year.

The mail address of Pahatsi Press" is Dea Springs in care of Camp Pahatsi.

THE BAND STAND AGAIN

Comment in the last issue of the Nugget on the proposed band stand and the use of parks brought forth a prompt reply from a member of the Native Daughters which is printed on the first page of this issue.

While we do believe the city needs a band stand for the use its excellent high school band in giving weekly concerts, we wish to repeat we are not advocating any particular site.

The Native Daughters have already dedicated their square as a memorial to our soldiers who gave their lives in the World War. They propose to erect there a public fountain.

In so far as municipal progress is involved there is little to choose, perhaps, between a fountain and band stand, and fortunately no choice is necessary, for in due time undoubtedly the Native Daughters will carry out their plan. They have already made the square below the Alpha Stores builring one of the most beautiful little parks in the county.

In time, we believe other public spirited organizations and private individuals will find a place for, and the means of erecting a band stand. It is quite possible that a suitable site may be found in the park now being negotiated for by the city council as a site for the municipal swimming pool.

Again we wish to state, the Nugget has no desire to advocate any particular site for a band stand. We are content to aid in whatever way we can the movement to obtain one.

The Certain-teed Speedlay Shingle is without doubt the "fastest-laying" shingle of its type. Its broad, 40-inch by 12½-inch expanse is divided into five separate units of varying size. In a very interesting manner, two types of Speedlays have been arranged so as to contain a four-color blend upon the single 40 inch strip. These blends are known as Red-Cast and Green-Cast. Speedlays likewise come in Color-blend and in the plain colors: Red, Green or Blue-black.

The Certain-teed Hexagon Shingle—Comes in a variety of sizes, types and color combinations. There are Standard Hexagonials, size 11 1|3 x 36-inches; Hexagonal Slabs, size 12½ x 36-inches; Double-Coverage Hexagonals, size 11 15|16 x 36-inches. Colors range from Red, Green, Blue-black and Color-blend, to the 4-color blends known as Red-glo, Green-glo and Tan-glo.

The Certain-teed Universal Shingle—Is a patented, interlocking, square-butt shingle, sixe 16 x 18-inches. It is a superb material for re-roofing, locking securely against heaviest winds. It will not blow loose, and provides a water-tight surface for years to come. Easy to lay a roof of three different exposures, deending upon the thickness of coverage you demand. Made in Red, Green, Blue-black or Color-blend.

The 4-Width Shingle—This is a 10 x 36-inch strip shingle intersected into four equal-sized shingles. In other words, the 4-width puts down the equivalent of four Individual Shingles in one operation. Made in Red, Green or Blue-black colors.

"WHERE A DOLLAR DOES ITS DUTY"

Ed. Whitburn, Mgr. Phone 42 Grass Valley

Shocks Galore !

A strange thought came to me last night,
And what a shock it gave me!
Lo, whence it came and whither bound,
I couldn't tell to save me.

"Why do you pester me? "I cried,
"You're terribly upsetting;
No thought like you has ever been
Of my staid brain's begetting.
I truly wish you'd go away,
You startle my delusions,
Unsettle pre-conceived ideas,
And threaten by illusions."

"I've come to stay," the thought replied,
Why I belong to you;
I am the only thought you have
That's really fresh and new.
Those poor old thoughts you cherish so
Were left by dolts and sages,
And travelled slowly down to you
By dark and devious stages.

You took them in and called them yours,
Without a doubt or question,
Men shouldn't garner thoughts like that,
So list' to this suggestion;
Go out and get a flock of thoughts
That suit the time and season,
Bestir that sluggish brain of yours
And exercise your reason."

So I collected new ideas.
Though shocks galore they gave me,
And what the net result will be,
I cannot tell, to save me.

A. MERRIAM CONNER.

BUDGET

NEVADA CITY ELEMENTARY SCHOOL DISTRICT

Nevada County for the school year ending June 30, 1934.

To the County Superintendent of Schools:

The following budget was adopted by the governing board of the Nevada City school district at a regular meeting held June 11th, 1933

J. F. COLLEY
Clerk
P. G. SCADDEN
Secretary

1. PROPOSED EXPENDITURES FOR MAINTENANCE PURPOSES

	TEACHERS' SALARIES ONLY	OTHER MAINTENANCE EXPENSE	TOTAL
1. ADMINISTRATION:			
School elections		25.00	
Superintendent's office		75.00	
Business office		60.00	
Other expense of administration		25.00

Hearing on this budget will be held at Oakland School, July 22, at 8 p. m.

Twin Cities Pleasure Hall

SATURDAY NIGHT

They are back again to meet their Old Friends Joe Margil and his GARDEN ALLAHS

MRS. ADELAIDE RUSSEL SUMMONED BY DEATH

The many friends of Mrs. Adelaide Russel will be shocked to hear of her death at Placerville, Wednesday about 12:30 p. m.

Mrs. Russell was the wife of R. Russell and step mother of Orrin J. Tompkins, employed at the Leiter Garage of this city.

The funeral will me today at 2 p. m. Rev. Telford will conduct the services. The burial will be at the Pine Grove Cemetery.

NORTH BLOOMFIELD

By MRS. RALPH PENROSE

NORTH BLOOMFIELD, July 13—Miss Elane Mobley of Nevada Cty, and Miss Helen Crandall of Oakland spent the last week in North Bloomfield on a camping trip. They left Monday for Carson City, Nevada, via the Tahoe Ukiah highway.

Mr. and Mrs. W. L. Mobley and son Myers of Nevada City, passed through Jast Sunday on a trip to Bowman Dam. They made a very successful catch of fish.

Mr. MacGinitie and Mr. German of Berkeley, spent a couple of days here. They are hunting fossils for the University of California.

The Piedmont Camp Fire Girls were in North Bloomfield last Saturday night and returned to their home Sunday. They all seemed to enjoy the boy's entertainment and also the swimming pool.

Mr. and Mrs. Bart Sweeney, was called to Peter's California, last week. Mr. Sweeney's brother Gus was taken very ill. But he seems to be holding his own by last reports.

Mr. La Kamp from Graniteville passed through North Bloomfield returning to his home there.

Miss Jessie Roberts has been visiting in North Bloomfield for the past week. She is the guest of Miss Phyllis Anderson.

Mrs. Alice Newton and daughter Margaret went to Sacramento for the week end.

Mr. Max Foote returned to his home in Los Angeles last Sunday. His brother Robert is now visiting his sister, Mrs. A P. Landsburge.

YREKA, July 10—(UP)—Charles Noel found gold while digging a hole for a septic tank in his back yard. He panned enough gold to pay for the tank and its installation.

FEDERAL FUND OF 16 MILLION FOR STATE HIGHWAY

SACRAMENTO, July 10—(UP)—California may expect a comparative boom in highway construction in the next few months.

In the first place definite assurance has been received that the California allotment of federal funds for highway purposes under the national industrial recovery act will amount to approximately $16,000,000, available for road projects after July 1.

The projects to which these funds will apply have not been definitely selected, according to the state department of public works. Under provisions of the federal act these funds are "granted to state highway departments for the construction of public highways and related projects on the federal highway system and on extensions thereof; into and through municipalities and on secondary and feeder roads."

In addition to this, action of California voters in voting down two propositions to divert gasoline tax money from the highway fund to the general fund will make available some $17,000,000 for highway purposes. Plans for the exenditure of this money had been held up pending the outcome of the special election.

At the present time the state has 94 going contracts for state highway work—75 for road construction and 19 for bridges and grade separations.

Work orders for construction and reconstruction projects issued since May 25, according to a report of the division of highways, total $332,000; projects advertised total $73,400 and projects anticipated for advertising during July total $251,800.

In addition to work provided by these funds, the state is pushing construction of the $62,000,000 San Francisco-Oakland bay bridge.

STATE TO LAY OFF 1500 EMPLOYES

SACRAMENTO, July 10—(UP)—Drastically reduced budgets affecting every state department will require the layoff July 1 of between 1,500 and 2,000 state employes, according to Rolland A. Vandegrift, state director of finance.

These layoffs, it was pointed out, are in addition to those which may be necessary if the legislature sustains the governor's veto of the salary reduction bill and refuses to appropriate the necessary $5,000,000.

The layoffs by departments include: architecture and highway engineers, 160; water resources, 60; natural resources, 20; agriculture, 100; finance, 25; social welfare, 15; motor vehicles, 50; industrial relations, 15; California polytechnic school, 20; California nautical school 20; institutions, 63.

GOLFERS MISS PUTTS WHEN EARTH QUAKES

SACRAMENTO, July 10—(UP)—Local golfers insist there ought to be a law against Mother Earth doing a shimmy while the game is in progress.

When a recent earthquake shock caused the landscape in this vicinity to tremble momentarily, at least 3 golfers emphatically blamed the tremor for missed putts. One player went so far as to declare the fates were against him, tore up his card and refused to continue the game.

The effect in the locker room was even more serious. One of the "tea drinkers" swore he saw a light bulb swaying, with the result that his liquid refreshments were confiscated.

KIND NANNY GOATS ADOPT ORPHAN CALF

COLUSA, July 13—(UP)—Colusa county nanny goats are joining the ranks of the welfare workers.

According to Henry Kron, sheep grower of the Arbuckle district, two nanny goats on his ranch have adopted an orphan calf. And the calf doesn't object in the least.

The goats are exceptionally accomodating in providing meals for the new addition to their family, Kron said. When dinner time arrives the goats jump up on a box and the calf partakes of nourishment.

TRAPPER FINDS COYOTES VERY SCARCE IN JUNE

AUBURN, July 13—(UP)—June is "hideout" month for coyotes, according to a report on file with the county clerk here.

C. Haenny, Placer county trapper, reported the animals were more elusive during June than any other month in the year. He succeeded in catching only nine.

During the three years he has been official trapper for the county Haenny has trapped 875 coyotes.

AVIATOR ROUNDS UP MUSTANGS

LAKEVIEW, Ore., July 10—(UP)—Rounding up of wild mustangs by airplane was conducted with unusual success in this area recently by C. Haln, local aviator. Heretofore, the wild horses had evaded buckaroos before they could be driven into a corral. The airplane was used to scare the horses into a band, then drive them to the waiting buckaroos up some canyon.

HANDICAPPED

ANDERSON, July 10—(UP)—The loss of its hind legs doesn't stop a dog belonging to Fred Knerr from chasing rabbits. The animal elevates its hind quarters and runs on his front legs.

CAMP PAHATSI OPENS WITH 62 SCOUTS ON ROLL

CAMP PAHATSI, July 13—Camp Pahatsi opened last Sunday with 62 Scouts in camp, the third largest group of Scouts in camp in any one week. Thirty are new first year campers while ten are second year campers and the remainder have been at camp from three to nine years.

An advance guard of fourteen leaders and scouts worked five days previous to the opening of camp, building a new swimming dock, lookout tower, repairing boats, filling in the front porch, erecting 25 tents and cleaning up the lodge and camp grounds.

The camp staff is headed by Scout Executive Harris Ricksecker. This is Chief Ricksecker's 12th year as Camp Director of Boy Scout Camps.

YUM! YUM!

Mrs. Alda Dalby, Auburn high school cafeteria cook is our camp cook for the fourth year. The first week she promises that among the specials will be home-baked bread, hot rolls, ginger bread and doughnuts.

Jeff Mooers is back again in camp this year in charge of swimming, life saving, leathercraft, games and hikes.

This is Russel Penrose's 10th year in camp and 6th as Nature Man. Russ. has charge of bird and other hikes, nature blue printing and spatter work, and the nature museum.

Sam Partridge the Officer of the Day, Editor of the "Pahatsi Press," manager of the camp bank, store and office.

Paul Burbage of Colfax is the camp mechanic, truck driver, pump man and quartermaster. Paul also instructs in leaderwork.

Mr. W. L. Holmes, Scoutmaster of Roseville is the camp carpenter and andicraft man.

Will Geyer of Roseville is the Weather man, Sanitary Officer and Assistant Quartermaster.

Elwyn Gregory of Roseville is campfire leader and instructor in boating and swimming.

Fred Stephen, Assistant Scoutmaster of Troop 1, Roseville, is Mess Officer in charge of K. P.'s, Associate Editor of "Pahatsi Press" and instructor in leathercraft.

This year the camp consists of six patrols. Patrol No. 1 is named the Wolf Patrol, Clarence Decater P. L. Patrol No. 2 is the Prowling Panthers, Roy Toms P. L. Patrol No. 3 is the Prosperity, Jack Gorden P. L. Patrol No. 4. is the Eagle, Dick Ebbert P. L., Patrol No. 5 is the Buccaneer, Adolph Santaga P. L., Patrol No. 6 is the Blue and Gray, Bob Roesner, P. L.

Sunday afternoon swimming was an ability test. Buddies were chosen and the check board system started. It was found out that every Scout in camp was a swimmer. This is the first time in Camp History that all the Scouts in camp during one week could swim. At the next swimming period Monday morning 23 signed up for the weeks instruction in Red Cross Life Saving. Five passed the merit badge requirements in Swimming and 30 passed the tests for the Red and Green Seals for camp honors.

NO MOLLYCODDLES HERE

Monday afternoon all the Patrols went out on practice hikes to get experience in camping for the big overnight hike to Devil's Peak later in the week. Tuesday second and third year campers went to Ganite Creek which is west of Snow Mountain. They will stay out two days and return with the rest of the camp who go out Wednesday on the big hike to Devil's Peak .

Thursday afternoon the Scouts will have a game of Capture the Flag. Friday night, Tribe of Pahatsi, Saturday an afternoon of Scout games and contests by Patrols. Sunday afternoon, boat and swimming races and other water sports.

NEW FLAG POLE

Leathercraft instruction supervised by three able instructors have had three busy periods giving instructions to the scouts in making bill folds, key cases, axe sheathes, coin purses and leather belts, with metal belt ornaments. Nearly 200 yards of boondoggle have been sold for braiding lanyards, watch fobs and bill folds.

Sunday July 16, will be the American Legion Picnic and Knights of Dunamis Day in camp. The Knights (Eagle Scouts) will dedicate a new flag pole which will be erected in front of the lodge. The American Legion posts of Placer and Nevada counties will hold their fifth annual picnic here at camp. There will also be water sports Sunday afternoon and a baseball game.

There is still room at camp for more Scouts.

FIRST CONCRETE IS POURED AT BOULDER DAM

LAS VEGAS, Nev., July 10,—(UP)—A milestone, unmarked by ceremoney, was passed at the $220,000,000 Boulder dam when a bucketful concrete, eight cubic yards, was poured in a slot in the bottom of the deep canyon, signalizing the final phase of construction.

From this point work will proceed uninterrupted until August, 1935, when the project is scheduled to be completed.

Pouring of concrete, too, marks the end of difficult phases of the construction task. For the first time, will begin to rise as the concrete actual evidence of accomplishment dam rears itself in the canyon of the Colorado river separating Arizona and Nevada.

Behind this concrete facade, where now lies sun-baked desert, will be created the largest man-made lake in the world, containing 30,500,000 acre feet, with a shore line of 550 miles.

Pouring of concrete was on solid bedrock in mid channel and was undertaken only after geologists and inspectors determined that further excavations into the rock were unnecessary for a solid footing capable of supporting the huge dam. The dam will require 3,400,000 cubic yards of concret.

Grouting in shallow holes on the Arizona side also is under way. This rich mixture of cement and water is forced into the holes drilled in the bedrock to seal any crevices or apertures that exist beneath the rock surface.

The entire dam site, on the bottom and up the sides, will be grouted or cement-sealed, to make the bases for the dam as solid as possible.

Concrete for the dam is being hauled through two tunnels and then along the Nevada cliff to a point part way up the side of the clift, where it is unloaded and transported to the bottom of the dam.

Another railway, operated by electrically driven engines, has been laid through railroad tunnel No. 1 and partly through railroad tunnel No. 2.

Cement to be used at the Lomix plant will be unloaded at the Himix plant and blended there. For the first stages of the job, the cement will be blown from Himix, a mile from the Lomix plant, through a nine-inch steel pipe line.

VIEWS OF THE LONG HOME

LONG BEACH, July 10—(UP)—The thief who stole a sample case from the automobile of George W. Linden, had a surprise in store for him. The case contained 100 photographs of caskets.

Put Your Liver To Work--Make This Test
You can't feel well and strong unless your liver furnishes your stomach and bowels plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—constipation, gas, sour stomach, headaches and nervousness follow.
Don't be misled. Calomel, salts, oils, mineral waters, laxative pills, etc., have no effect whatever on the liver. These are only two generally recognized substances which actually cause a sluggish liver to increase its production of bile. Sargon Soft Mass Pills contain both of them.
Unless you have tried Sargon Soft Mass Pills you can have no idea of their effect—you feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly.
Only 60c for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Ga.—(adv.)

A Divine Satisfaction

To be away from the streets of intense life,
Where the chorus of people are streaming with strife.
What passions, hopes, joys and sorrows
Fill the hearts of that crowd of tomorrow,
Thinking, worrying, hurrying their way,
Losing the beauty of life; we say—
That comes to the little group of today.

Give me a field of clover so sweet,
For beauty and peace there, I shall meet;
Or the unspeakable silence of gentle hills
And the melody of birds that thrills
The very soul within us.

Or to walk in a garden of fragrant flowers
With quiet moments that we call ours,
Where the scented breeze like the finest of lace
Would tenderly, softly touch my face.

Or if I'd choose some sweet strain,
And listen to the soft refrain
Of a rippling, murmuring, gliding stream
As on—it's foaming ripples gleam.

Or let me gaze at the setting sun
After each day's work is done;
The rapture of tho'ts unfurled therein
Would blind my eyes to evil and sin;
For such wonders from God above
Just warms the world with Truth and Love.

Oh; how I'd love these things to see,
Where life is in tune with harmony
And how grateful I am for the eyes that insist
To see right thru' the material mist
For at every glance there I can find
It's the work of God and God alone
That satisfies the Soul and mind;
All around, and everywhere, you will find,
His Work Divine.

—BERTHA JOY DELLEA

Miss Florence Genasci of Willow Valley was a recent Sacramento visitor.

Our Correspondents

CAMPTONVILLE

By ACTON M. CLEVELAND

CAMPTONVILLE, July 10—Mrs. M. Rathjen and son Bernard motored to Plumas county one day last week on a brief visit.

Mr. and Mrs. Julius E. Pualy left Thursday for Mohawk on a few days visit with relatives.

Currol Winrod of Fresno was in town Friday on a short visit, calling on Acton M. Cleveland, an old schoolmate.

Mrs. Kate Hope Livingston, local high school teacher, left Thursday for Graeagle on a few days visit to her son Charles Livingston.

Mrs. Rachael M. Labadie and Mr. Marshall Jenkins motored to Nevada City Friday on business.

Joe. Haklyard and M. G. Galvin have gone to the Halkyard mine where they will work for some time.

Forest Ranger Frank W. Meggers spent two days last week in the Milton section of his district.

Mr. and Mrs. Miller McBride of Yuba City were in town Friday on a short business visit.

A. A. Wallis, who lived here during the past few months has recently moved to Downieville where he will be connected with some mining activity.

James L. Joubert motored to Sacramento Friday, returning Sunday after visiting with relatives.

Mr. and Mrs. Fred Jackson and Miss Helen L. Jackson returned Friday from a short visit into Oregon.

L. W. Turner of Smartsville was in town Friday on a short business visit.

Ray Wilde of Nevada City was in town Friday on a short business visit.

Floyd Cartwright of Grass Valley passed through town Friday from Sacramento with a load of ice enroute to Sierra City.

Supervisor W. J. Mellon and Joe Vierra of Challenge, were in town Thursday on a short business visit.

Mr. and Mrs. Fay Clayton and family of San Francsico arrived Friday at the Hotel Francis on a week end visit with Mrs. Labadie; Mrs. Clayton, formerly Miss Ruthe Mullaley, resided there for several years.

Mrs. Casseari Perari and family arrived Sunday morning from Grass Valley enroute to the Old Gold mine to visit her husband.

Miss Thelma and Annie Laurie Lang arrived last week from Fairfield and will spend a month visiting their father Ed Lang.

Mr. and Mrs. George Zumwalt of Marysville are spending a few days visiting Mrs. Zumwalt's parents, Mr. and Mrs. Dave Humphrey at Mill Creek.

Mr. and Mrs. Frank Bobb and family of Sweetland spent the week end here visiting friends.

James G. Bennett of Haywards arrived Friday on a short visit to his mining interests here.

Mrs. George Langley suffered a serious sick spell about a week ago, and although still in a critical condition, is somewhate better.

Dr. C. Wayland, and family, of San Jose, spent the past week at his Mt. Alta—Altaview Mining property.

FARMER SUES AND SETS DAILY WAGE AT $2.50

COLUSA, Juy 10—(UP)—The daily wage of a farmer is estimated at $2.50 in a suit on file in superior court here.

As the result of an automobile accident, Clark Chatfield, Williams rancher, seeks damages of $5,000 and $2.50 per day for the rest of his life. He alleges his earnings amounted to $2.50 daily and would have continued to do so had he not been incapacitated by injuries received in the crash.

The suit charges a car operated by Mrs. Anne Glover rammed Chatfield's machine, overturning it and injuring the plaintiff.

BUTCHER SHOP MEDICINE IRES DRUG STORE HEAD

SACRAMENTO, July 10—(UP)—Drugstores apparently are fed up on butcher shop competition.

Louis Zeh, secretary of the state board of pharmacy, lodged a complaint with Governor Rolph stating that butcher shops and fruit stores were the latest retail concerns to enter the drug selling field.

"Many of these places are selling drugs and medicines in open violation of the pharmacy act," Zeh complained.

WHILE KIDDIES GET RIDE FATHER LOSES VOTE

WOODLAND, July 10—(UP)—Next time there's an election, Jack Enloe, Yolo county rancher, probably will go to the polls alone.

Intent on marking a ballot in the last election, Enloe bundled his two children into a truck and drove into Madison to vote. Before visiting the polls he decided to do a little shopping and parked the car in front of a store.

Curiosity got the better of the youngsters, aged 6 and 3, and they wondered if they could start the machine. They could—and did.

Enloe regained the truck after it had bumped into a parked car and stopped—but by that time the polls had closed.

HERE'S THE WAY TO FOIL POISON OAK

SACRAMENTO, July 10—(UP)—Afraid of poison oak? Then here's what you want to do before venturing into the danger are according to reports submitted to the state board of health:

First, bathe all exposed parts in 10 per cent ammonia water—that is hands, arms, face, neck and ears. When applying to the face hold your breath while you put it on and wipe it off with a towel.

Then aply liberally to the same area a saturate solution of hyposulphite of soda. Allow this to dry on the skin without wiping. This solution is nothing more than the ordinary "Hypo" used in developing photographs. It forms a very thin but tough and resilient coating on the skin which prevents the fine oil of the poison oak plant from penetrating into the pores.

TURKEY EGGS ARE HATCHED IN WARM SAND

GERBER, July 10—(UP)—Vernon McDonald, 11, has gone into the turkey business all because of the recent hot spell.

The boy was walking near an old dump ground near here recently when he saw a pile of abondoned turkey eggs, one of which was broken revealing an embryo. Vernon covered the rest of the eggs with warm sand.

Sunday the temperature was 105, Monday, 108, Tuesday, 110, and Wednesday Vernon had 15 brand new turkeys.

Mr. and Mrs. Fred Walsmley,, E. S. Snelling, and Albert Hills composed a party that motored to Sacramento and Folsom last Thursday. While in Folsom they visited the prison.

NEW HUNTERS LICENSES READY

SAN FRANCISCO, July 13—Licenses for the 1933-34 hunting season are now available, the State Fish and Game Commission announces. The licenses will be good from July 1, 1933 to June 30, 1934. Two years ago the Commission changed the period of hunting licenses from the calendar year to the fiscal year. This was done to accommodate duck hunters, particularly, who were forced to renew their hunting licenses during their outing, because the duck season ran over in to January at that time.

The hunters are promised good sport for the coming season. Deer came through the winter in good shape and they are reported numerous. Quail have shown marked increase according to reports from the wardens. Doves and rabbits are also on the increase. There will be an open season on band-tailed pigeons, and a five day open season on pheasants, the first in the state's history.

Here is what a hunter is permitted to kill during the year for his $2. license; of course bag limits regulate his daily shoot: 120 doves, 120 valley quail, 80 mountain quail, 240 wild ducks, 64 wild geese, 160 snipe, 200 mudhens, 150 wild pigeons, 120 cottontail and brush rabbits, 2 pheasants and some species of fur bearing animals. In addition, for one dollar more, the hunter may kill two buck deer.

DEPRESSION MINERS PAN OUT $493,437

SACRAMENTO, July 10—(UP)—A final check of the production of showed that 12,000 of them produce the "depression miners" last year ed 23,870 fine ounces valued at $493,437. The average amount received by the group comprising mostly of amateur prospectors, was $41.-12.

DR. MILES' **ANTI-PAIN PILLS**

These 3000 kinds of Natural Chinese Herbs have been used in China for more than 4000 years are now a proven remedy. More people are using them today than any other medicine now in existence. Try our herbs, you will be convinced.

Whether you are suffering from lung, heart, kidney, stomach or blood trouble, or whether you are afflicted with catarrh, cough, asthma, bronchitis, neuralgia, rheumatism, epilepsy, diabetes, nervousness, piles, tuberculosis, sore throat, skin disease, or female trouble, etc., come to us. We also prove to you the superior effectiveness of the Chinese healing herbs. Don't think we can be of no service to you just because others could do you no good. Such cases are exactly what we are after.

Office hours—Daily 9 a. m. to 8 p. m. except Monday, 6:30 to 9 p. m. Closed Sunday.

Cut down Kitchen Hours *with the* NEW GAS RANGE

★

SPECIAL SUMMER SALES OFFERS!

Special Offer **No. 1** Latest model Gas Range and Tank Water Heater, completely installed for as little as **$6.00** *a month* Liberal trade-in allowance and small down payment.

★

Special Offer **No. 2** Latest model Gas Range and Automatic Water Heater, completely installed for as little as **$7.30** *a month* Liberal trade-in allowance and small down payment.

THE modern features of the 1933 gas ranges give a woman a chance to cut down kitchen hours. The oven control, for example, is a wonderful help. For baking and roasting it is no longer necessary to be poking your head into a hot oven every few minutes. Just set a dial and forget testing and peeking.

It is just wonderful, too, how well the new insulated gas range ovens keep heat retained at its job of cooking food. The kitchen is not heated up even if a whole meal is simmering hot within the oven. Now all roasting and baking can be done without a weary cook melting away beside her stove.

Don't miss the opportunity to secure for yourself the leisure hours and real cooking pleasure a Modern Gas Range will give. Take advantage of the Special Summer Purchase Offers which are in effect.

Mercy Harbison

OVER two hundred women, most of them wives and mothers, followed the army that Gen. Arthur St. Clair led out of the East in 1791 to quell Indian uprisings in the Ohio-Indiana territory. And the most tragic aspect of St. Clair's famous defeat at the hands of Blue Jacket, Little Turtle and Simon Girty was the frightful death of over fifty of them at the scene of battle and the sufferings many of them were forced to endure afterwards.

There was Mercy Harbison, whose husband survived the battle, but was immediately ordered out again to spy upon the redmen in the wilderness. Early one morning, when he had been summoned to the nearby blockhouse, Mercy awoke to find a painted redskin pulling her out of bed and her cabin filled with Indians. Hoping to distract the Indian's attention and make escape possible for herself and three children, she began to talk of the fort, of the forty able-bodied men stationed there, all excellent marksmen. Her account saved the fort rather than herself, for the Indians, alarmed, merely hastened their work of pillage and set out with their prisoners.

The second child, who whimpered and hung back, they slaughtered before the cabin; the eldest, who was hurt when one of the horses fell on the second day's march, they also murdered, and flaunted his scalp before the agonized mother's eyes.

Finally, exhausted with the long march through the woods with her baby in her arms, Mercy refused to carry further the large powder horn which had been assigned her, hoping the savages would kill her outright and put an end to her sufferings. Instead, the Indian who claimed her as his particular prize, approved her action and protected her against the rest. At length, left in charge of two Indians who took turns keeping watch for pursuers, she made her escape while one of her guards slept. With her baby in a sling, one end of which she held in her hand, the other in her teeth, she wandered for three days through the forest. When she finally reached a settlement on the Alleghany river, where she was nursed back to health and later returned to her husband, she was in such a condition that lifelong friends, from whom she had been parted only six days, did not recognize her!

GRUNOW WINS FIRST HONORS AT WORLD FAIR

The ONLY REFRIGERATOR UNIT DISPLAYED in the Hall of Science at Chicago's Century of Progress Exposition is the amazing new Grunow!

In the place of honor that money can't buy—awarded for merit and merit alone by a jury of independent scientists—this sensational development carries the label "GRUNOW ELECTRIC REFRIGERATORS . . . . MOST MODERN DEVELOPMENT TO-DATE IN ELECTRIC REFRIGERATION INDUSTRY!"

Mr. Grunow, when invited to place his unit in the Hall of Science—where space can not be purchased for display purposes but just by invitation to show outstanding advancement in all branches of science—had a unit made entirely of glass which shows the refrigerator as it circulates through the system. This would be impossible with any other unit than Grunow due to dangerous pressures which they contain.

Grunow alone stands the test as it has no pressure and uses Carrene—the magic fluid refrigeration—nonpoisonous, non-toxic, non-inflammable, non-explosive.

Millions will see this unit at the Fair. You can see the Grunow at our store. Let us give you a demonstration no other household refrigerator in the world can duplicate!

WIFE OF WHISKEYTOWN MAN CHARGES INEBRIETY

REDDING, July 13—(UP)—It's quite possible there may be something in the power-of-suggestion theory.

Mrs. Walter Reel appeared at the courthouse here seeking the solution of a domestic problem. She asked that her husband be taken in charge and given an examination for alleged inebriety.

Inquiry by the officers developed the fact that Walter was a resident of a noted pioneer community of Shasta county—Whiskeytown.

NORTH SAN JUAN

By MRS. F. M. HARRIS

NORTH SAN JUAN, July 11,—Mr. and Mrs. Thomas Sawyer and son, of Oxnard, have been spending a two week's vacation with Mrs. Sawyer's mother, Mrs. W. R. Burnett, of Sweetland.

Mr. and Mrs. F. M. Harris and nephew Harris Mathews, went up to American Hill on Thursday for a little camping trip.

On June 28th a baby boy was born to Mr. and Mrs. Neil Ennis. The little new-comer is named Chester Dayton and is a fine healthy boy.

Mr. and Mrs. George Sherwood of Sacramento have purchased the property west of town formerly owned by the Pheybergers. Mr. Sherwood is a member of the Sacramento fire department and they plan to spend his vacation here where they can enjoy the mountain air and scenery.

Mrs. McQuinn and children have gone up beyond Goodyear Bar to spend a few weeks with Mr. McQuinn who is camped there and engaged in prospecting.

The human population of the world is now 1,700,000,000 and is increasing about 1 per cent a year.

Mrs. Loscamps, mother of Mrs. O. E. Schiffner, of Nevada City, went to Oakland Tuesday to attend the funeral of her brother-in-law W. G. Clark.

FORMER RESIDENTS ON VISIT

A group of former residents of the bay region arrived in Nevada City, yesterday evening to spend several week's vacation in a rented apartment on Grove street. Those in the group are: Mrs. Lester Head and daughter, Mrs. L. R. Head and daughter, Mrs. S. Messini and daughter, and Mrs. Charles Wilde. Nearly all of this group are related to Mesdames Charles Guenther and Will Jeffrey of this city.

William F. Huntz, retired business man, and Mrs. Huntz of Hollywood spent a couple of days visiting with Mrs. Clara Scarfe in Nevada City. They are touring northern California, Washington and Oregon, and were pleased with their first visit in Nevada City. Mr. and Mrs. Huntz are friends of Mrs. Scarf's son, George Osterman, who was recently married.

Ed Beegl, stopped over in Nevada City yesterday enroute to Alleghany where he is employed in the mine. He has been spending a six week's vacation with his wife and son in Richmond.

SOCIAL EVENTS

Miss Dorothy Baker Weds Gordon Hamilton

The former Miss Dorothy Baker, pretty and accomplished young daughter of Mr. and Mrs. Ed. Baker, stole a march on her many friends when she slipped away with Gordon Hamilton of Auburn. They were married July third in Reno.

Mrs. Hamilton graduated from the local schools and after graduating from the University of California, has been teaching in the Oakland schools.

The groom holds a responsible position with the Auburn Fruit Exchange.

These two young people met at the University where the romance began that culminated in their marriage.

Both are popular in their respective cities where they resided and their large circle of acquaintances wish for them much happiness.

Nevada City Folk Picnic at Lake Tahoe

Last Sunday Joe Spence of the Twin Cities bus line invtied a number of friends to a picnic on the shores of Lake Tahoe, where they enjoyed a fine lunch and visiting different points of interest at the lake.

Those going on the trip were: Mr. and Mrs. James Williams, son, Donald; daughter, Pearl, Mr. and Mrs. Wilmer Miller, Traffic Officer W. C. Fouyer wife and son, Ainsley, Mr. and Mrs. A. C. Fouyer ,Mr. and Mrs. J. Spence and son.

They made the round trip in the big bus via the Tahoe-Ukiah highway, Bear Valley and the Lincoln highway.

Engineer R. A. Fraser returned Wednesday from a business trip in the state of Nevada.

Thimble Club Enjoys Afternoon of Cards

The Champion Circle No. 325, Thimble Club had a large attendance at their meeting yesterday afternoon. Ada Masterson, Adele O'Conner, Marie Haddy and Peggy Flyn were the hostesses.

The "mystery box" was won by Nance Schiedeck. There was one table of bridge and the rest were whist. Della Walsh won first prize at cards and Teresa McCloud second. Delicious refreshments concluded the most enjoyable affair.

SALARIES OF UNIVERSITY INSTRUCTORS SLASHED

BERKELEY, July 13—Even though Governor Rolph vetoed the blanket state salary reduction bill, the University of California has put into effect pay slashes ranging from 2 to 20 per cent. This was stated today by Comptroller L. A. Nichols of the university.

"We believe," Nichols said, "It was the intent of the legislature to make such a cut, and our budget was reduced drastically with that in mind. And with our present appropriations, it is necessary to cut salaries even though other state departments do not do so. Otherwise, we would have to dismiss a large number of men in addition to the fifty or sixty already removed as a result of the shortage of funds."

The comptroller said the total university budget has been cut by $3,000,000, principally represented in the salary roll which was reduced from $8,027,847.83 to $6,861,219.46.
